

My name is Jack Bulman and I am a Muthi Muthi man from South Western NSW. I am the CEO of Mibbinbah Limited, which is an Indigenous male health promotion charity.

I have known Paul Craft of Reedy Creek for 5 years during this time he has lived in the Gold Coast area including Reedy Creek, Varsity Lakes, Burleigh Heads and Springbrook. Paul has worked tirelessly in Aboriginal and Torres Strait Islander communities in the Gold and Tweed regions for many years. Paul has facilitated educational and cultural workshops for Mibbinbah which assist Aboriginal and Torres Strait males to find their rightful place in society whatever that maybe, by creating safe spaces to enable our lads to engage and talk about their critical concerns and issues. Paul has had great success with his educational and cultural sessions with both Aboriginal and Torres Strait Islander people and non-Indigenous people.

Over the past five years I have known Paul both as a colleague and as a friend. I and Mibbinbah fully support his application for Housing.

A handwritten signature in black ink, consisting of the initials "JB" followed by a long horizontal line.
