PAUL CRAFT

My staff and students thoroughly enjoy participating in Paul's workshops. His workshops are first class and are now an integral part of our NAIDOC celebrations and cultural education. Paul's genuine liking for, and expertise in educating students is evidenced in both his patience and enthusiasm when working with our students and staff. He is incredibly well-respected by our school community. Paul is always punctual, well-organised and proficient in his roles as an educator and as a performer. His workshops have had a positive impact across our whole school community.

John Cattoni
